Restrictions on lobbying activities described above also specifically apply to lobbying related to any proposed, pending, or future Federal, state, or local tax increase, or any proposed, pending, or future requirement or restriction on any legal consumer product, including its sale or marketing, including but not limited to the advocacy or promotion of gun control.

This prohibition includes grass roots lobbying efforts that are directed at inducing members of the public to contact their elected representatives to urge support of, or opposition to, proposed or pending legislation, appropriations, regulations, administrative actions, or Executive Orders (hereinafter referred to collectively as legislation and other orders). Further prohibited grass roots lobbying communications could also encompass any effort to influence legislation through an attempt to affect the opinions of the general public or any segment of the population if the communications refer to specific legislation and/or other orders, directly express a view on such legislation or other orders, and encourage the audience to take action with respect to the matter. In accordance with applicable law, direct lobbying communications are also prohibited. Direct lobbying includes any attempt to influence legislative or other similar deliberations at all levels of government through communications that directly express a view on proposed or pending legislation and other orders and which are directed to members, staff, or other employees of a legislative body or to government officials or employees who participate in the formulation of legislation or other orders.

Lobbying prohibitions also extend to funds used for conferences. Federal funds cannot be used directly or indirectly to encourage participants in such conferences to impermissibly lobby.

However, these prohibitions are not intended to prohibit all interaction with the legislative or executive branches of governments, or to prohibit educational efforts pertaining to public health that are within the scope of work. For state, local, and other governmental grantees, certain activities falling within the normal and recognized executive-legislative relationships, or

participation by an agency or officer of a state local or tribal government in policymaking and administrative processes within the executive branch of that government are permissible. There are circumstances for such grantees in the course of such a normal and recognized executive-legislative relationship when it is permissible to provide information to the legislative branch in order to foster implementation of prevention strategies to promote public health. However such communications cannot directly urge the decision makers to act with respect to specific legislation or expressly solicit members of the public to contact the decision makers to urge such action.

Many non profit grantees in order to retain their tax-exempt status have long operated under settled definitions of lobbying and influencing legislation. These definitions are a useful benchmark for all non-government grantees regardless of tax status. Under these definitions grantees are permitted to (1) prepare and disseminate certain nonpartisan analysis study or research reports (2) engage in examinations and discussions of broad social economic and similar problems in reports and at conferences and (3) provide technical advice or assistance upon a written request by a legislative body or committee.

Grantee shall not use funds from this grant to develop and/or disseminate materials that exhibit all three of the following characteristics (1) refer to specific legislation or other order (2) reflect a point of view on that legislation or other order and (3) contain an overt call to action.

Grantee may use funds from this grant to enhance prevention collect and analyze data publish and disseminate results of research and surveillance data implement prevention strategies conduct community outreach services foster coalition building and consensus on public health initiatives provide leadership and training and foster safe and healthful environments.

Note also that under the provisions of 31 U.S.C. Section 1352 Grantee (and their sub-tier contractors and/or funded parties) are prohibited from using funds from this grant in connection with the award extension continuation renewal amendment or modification of the funding mechanism under which monetary assistance was received. In accordance with applicable regulations and law certain covered entities must give assurances that they will not engage in prohibited activities.

Use of federal funds inconsistent with these lobbying restrictions could result in disallowance of the cost of the activity or action found not to be in compliance as well as potentially other enforcement actions as outlined in applicable grants regulations.

ISDH cautions recipients of federal funds to be careful not to give the appearance that federal funds are being used to carry out activities in a manner that is prohibited under Federal law. Recipients of federal funds should give close attention to isolating and separating the appropriate use of federal funds from non federal funds.
