# GRANT AGREEMENT EDS # A70-5-0532405 (PHEP)

This Grant Agreement (this "Grant Agreement"), entered into by and between the Indiana State Department of Health (the "State") and Montgomery County Health Department (the "Grantee"), is executed pursuant to the terms and conditions set forth herein. In consideration of those mutual undertakings and covenants, the parties agree as follows:

# 1. Purpose of this Grant Agreement; Grant Funds.

The purpose of this Grant Agreement is to enable the State to award a grant of \$15,836 to the Grantee for eligible costs of the services or project (the "Project") described in Attachments A and B of this Grant Agreement, which are incorporated fully by reference. The Project to further the achievement of three capabilities as the basis for state and local public health preparedness is described fully in Attachment A. The funds shall be used exclusively in accordance with the provisions contained in this Grant Agreement and in conformance with 42 USC 217(A) establishing the authority to make this Grant, as well as any rules adopted thereunder. The funds received by the Grantee pursuant to this Grant Agreement shall be used only to implement the Project or provide the services in conformance with this Grant Agreement and for no other purpose.

# 2. Representations and Warranties of the Grantee.

- A. The Grantee expressly represents and warrants to the State that it is statutorily eligible to receive these Grant funds. The Grantee expressly agrees to promptly repay all funds paid to it under this Grant Agreement should it be determined either that it was ineligible to receive the funds.
- B. The Grantee certifies by entering into this Grant Agreement that neither it nor its principals nor any of its subcontractors are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from entering into this Grant Agreement by any federal or state department or agency. # ATTACHMENT A Budget Period 3 2014-15 BASE Public Health Preparedness Grant

The Centers for Disease Control & Prevention developed fifteen (15) capabilities to serve as national public health preparedness standards. These capabilities are the basis for state and local public health preparedness. CDC's document, Public Health Preparedness Capabilities: National Standards for State and Local Planning, is located online here: <a href="http://www.cdc.gov/phpr/capabilities/">http://www.cdc.gov/phpr/capabilities/</a> and is hereby incorporated by reference into this grant agreement.

Local health department grantees have been working on at least three of the fifteen capabilities during previous budget periods. In previous budget periods, all local health department grantees were tasked with addressing the Medical Countermeasure Dispensing capability and choosing two additional capabilities to address during the term of the budget period. For Budget Period 3, Grantees will be asked to focus on tasks related to the final three capabilities that will be addressed at the local level, and have not yet been completed by their respective jurisdictions. The following represent the required activities and deliverables that the Grantee will undertake and/or submit, where applicable, as evidence of progress and achieving these three capabilities for purposes of this grant agreement:

# **Community Recovery**

Community recovery is the ability to collaborate with community partners, (e.g., healthcare organizations, business, educations, and emergency management) to plan and advocate for the rebuilding of public health, medical, and mental/behavioral health systems to at least a level of functioning comparable to pre-incident levels, and improved levels where possible.

# Identify health service delivery recovery priorities and jurisdictional partners

- During the budget period, utilize the Recovery Planning Guide template and guidance provided by ISDH to conduct a recovery planning meeting with jurisdictional partners. During this meeting, Grantees shall identify the public health service priorities specific to your jurisdiction, the partners involved in restoring these services, and potential gaps that exist within the jurisdiction that may be a barrier to restoring services. The Recovery Planning Guide template and guidance will be distributed to local health departments no later than July 1, 2014.
  - Required Submissions:
     Submit the completed Recovery Planning Guide and recovery meeting sign in sheet to ISDH by May 1, 2015.

**Note:** For additional information regarding recovery planning, see *FEMA National Disaster Recovery Framework – Health and Social Services Annex* 

# **Mass Care**

Mass care is the ability to coordinate with partner agencies to address the public health, medical, and mental/behavioral health needs of those impacted by an incident at a congregate location. This capability includes the coordination of ongoing surveillance and assessment to ensure that health needs continue to be met as the incident evolves.

Identify the primary points of contact for those organizations responsible for mass care in your jurisdiction and the immediate and ongoing public health services that may be required during mass care operations following a disaster

- Utilizing the data collection worksheet provided by ISDH, identify the points of contact in your jurisdiction primarily responsible for mass care operations (i.e. sheltering and feeding), identify the locations within your jurisdiction identified as public shelters during disasters, their approximate capacities, and the public health services that your jurisdiction may need as they relate to mass care operations. The ISDH will distribute data collection worksheet no later than July 1, 2014.
  - Required Submissions:
     Submit the completed Mass Care data collection worksheet no later than
     May 1, 2015.

**Responder Safety & Health** 

The responder safety and health capability describes the ability to protect public health agency staff responding to an incident and the ability to support the health and safety needs of hospital and medical facility personnel, if requested.

Identify the primary safety and health risks to public health personnel who may be involved in response operations in your jurisdiction and the appropriate protective measures that should be implemented

- Reference your jurisdictional hazard vulnerability / risk assessments, Medical Countermeasure Dispensing (MCD) Plan, local Comprehensive Emergency Management Plan, and other jurisdictional plans to identify public health roles and responsibilities related to identified risks. Utilizing the template provided by ISDH, document the medical, environmental exposure, and mental/behavioral health risks likely to be faced by public health responders and identify the protective equipment, protective actions or other mechanisms that public health responders (i.e. LHD staff and volunteers) will need to execute those potential roles. The ISDH will distribute the Responder Safety and Health data collection template by July 1, 2014.
  - o Required Submissions:
    - Completed template due no later than May 1, 2015

# **Budget Period 2 (BP3) Additional Requirements**

- Grantee will submit the calendar portion of an updated multiyear Training & Exercise Plan (TEP) by May 1, 2015.
- Grantee will support the ISDH in providing information requested by CDC related to reporting on performance measures and comprehensive planning guides.
- Grantee will conduct 2 volunteer call-down drills during the grant year. The Grantee shall document the total number of volunteers called, the expected acknowledgment time, the number of volunteers responding within that acknowledgment time period and needed improvements. All volunteers considered active by grantee shall be included in the drill. The drills should take place approximately 6 months apart, and the Grantee shall submit the documentation listed above to ISDH within 30 days of completing each drill.
- Grantee will submit a progress report by no later than May 1, 2015 documenting activities undertaken during the grant year to build or sustain the remaining public health preparedness capabilities not specifically selected for achievement during BP3. ISDH will provide the template for the progress report. Grantee will complete the progress report to fully reflect activities undertaken by the Grantee during the grant year.
- Grantee will utilize SERV-IN as a volunteer management tool in their jurisdiction to include recruiting volunteers to the SERV-IN website for registration. Grantee shall maintain at least one staff person identified as the SERV-IN system administrator for their jurisdiction and submit their contact information to ISDH by November 30, 2014.
- Grantee will participate in 800 MHz Radio Drills during the term of the grant agreement. 800 MHz radio drills are conducted on the third Tuesday of each month. ISDH will provide an updated radio drill schedule. Participation is required twice per quarter once for the statewide drill and once for the applicable district drill. The 2013 800 MHz radio drill schedule was distributed to local health departments in December 2012. No documentation submission is required for this activity. ISDH staff maintains the records of participation. If there is a mechanical issue with the radio at the time of the drill preventing participation an e-mail describing the issue sent to ISDH staff PRIOR TO THE DRILL or AT THE TIME OF THE DRILL will be required. Other justifications for non-participation will be considered on a case-by-case basis.
- Grantee will provide ISDH requested information in support of the development
  of a statewide inventory of public health resources that local health departments
  may <u>voluntarily</u> provide to support other jurisdictions during emergency response
  operations.

- Grantees that use federal preparedness grant funds to support emergency
  communications activities must comply with the fiscal year 2013 SAFECOM
  Guidance for Emergency Communications Grants. The guidance is intended to
  ensure that federally funded investments are compatible and support national
  goals and objectives for improving nationwide interoperability. SAFECOM
  guidance is available at <a href="http://www.safecomprogram.gov">http://www.safecomprogram.gov</a>.
- Grantee shall be compliant with the National Incident Management System (NIMS).
- All exercise related activities shall be conducted in accordance with the guidelines set forth in the Homeland Security Exercise and Evaluation Program (HSEEP)

ALL DOCUMENTATION SUBMISSIONS TO ISDH SHALL BE SUBMITTED TO THE APPLICABLE DISTRICT TEAM LEAD. GRANTEE UNDERSTANDS AND ACKNOWLEDGES THAT ISDH DISTRICT TEAM MEMBERS WILL CONTACT GRANTEE A MINIMUM OF ONCE PER MONTH TO ASCERTAIN PROGRESS RELATIVE TO THESE GRANT REQUIREMENTS AND GRANTEE AGREES TO BE RESPONSIVE TO THESE REQUESTS FOR INFORMATION.
